Organised by BEAM Society Limited
The Henderson – Behind the Scenes

As the epitome of world-class office and architectural excellence, The Henderson is set to become the next iconic building in Murray Road, Central — the heart of Hong Kong.

The Henderson is renowned for its breathtaking, impregnable structural forms and layering of a Bauhinia bud about to blossom. Its unique shapes and volumes are achieved by six mega-columns and one side core steel structure. The carrying capacity of the Henderson has surpassed the criteria and redefines the standard for a skyscraper.

The Ballroom – Cloud 39 boasts a striking all-glass design, high over the vibrant streets of the city of lights. Cloud 39 protect users and property with the cutting-edge curved glass façade of over four-ply, double laminated curved insulated glass to protect the building user and property from extreme condition.

The Henderson has garnered multiple top-tier awards, accolades and top certifications in global and local sustainability and green building standards, including but not limited to:

- BEAM Plus New Buildings Version 1.2 Provisional Platinum
- buildingSMART International Open BIM Award 2022
- Hong Kong Quality Building Award 2024
- LEED Core and Shell - Platinum Level Pre-Certification
- WELL Core and Shell - Platinum Level Pre-Certification
